WHAT IS CORONA VIRUS?

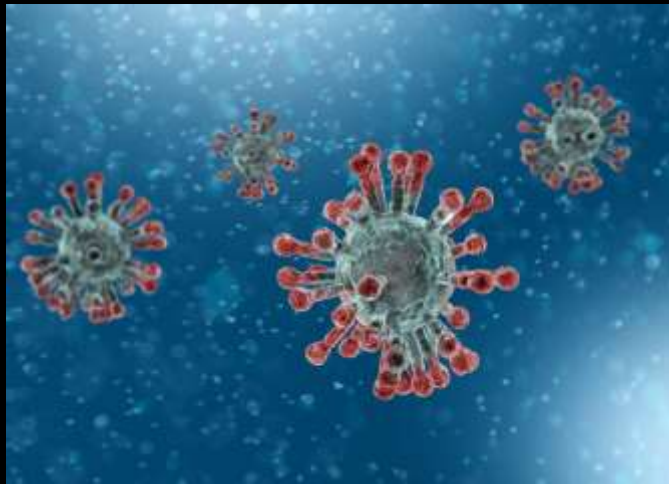

It is a Family of viruses which include:-

- Common Cold
- MERS(Middle East Respiratory Syndrome)
- SAR(Severe acute respiratory syndrome)

WHERE DID IT COME FROM?

- Circulating among animals
- Capability of transmitting between animals and humans.
- Source of coronavirus – Wide Range of animals.
- MERS - CAMELS
- SARS - CIVET CATS

- Origin-
 - It was first detected in Wuhan, a city in China.
 - Because of the disease being a viral one, it started spreading within the city in no time and killing people in large numbers.

EFFECT OF CORONA VIRUS

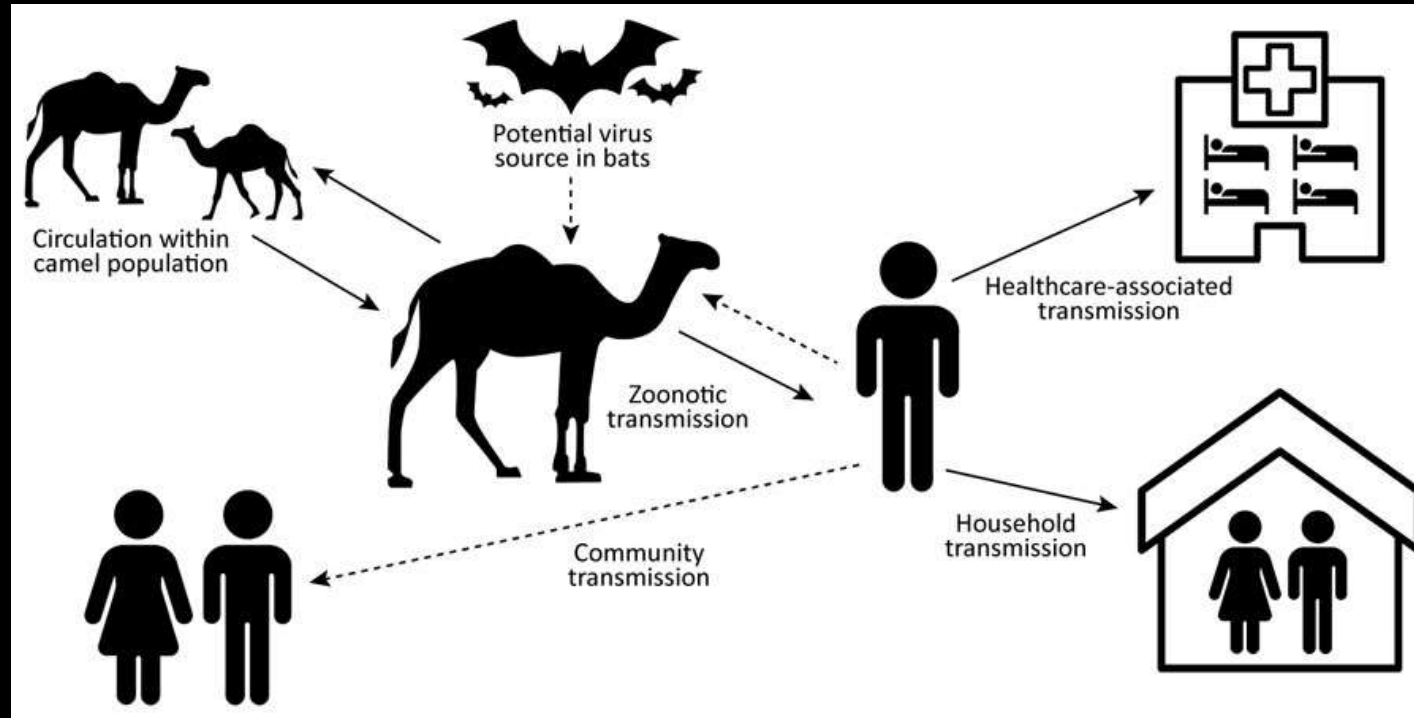

IMPACT ON CHINA

- Large swathes of the public transportation, tourism, leisure, and retailing networks have shut down.
- Many factories, shops, places of work, banks, and schools and universities have been disrupted.

GLOBAL IMPACT

- **International air travel** has been badly affected, with many global airlines cancelling flights to and from China.
- **Tourist flows** in and out of China have therefore been disrupted,

TRANSMISSION

- close contact with an infectious person
- contact with droplets from an infected person's cough or sneeze
- touching objects or surfaces (like doorknobs or tables) that have cough or sneeze droplets from an infected person, and then touching your mouth or face

DEATH COUNT

Country, Other	Total Cases	New Cases	Total Deaths
China	78,514	+450	2,747
S. Korea	1,766	+505	13
<i>Diamond Princess</i>	705		4
Italy	528	+58	14
Iran	245	+106	26
Japan	207	+35	4

DATA
COLLECTED TILL
27TH
FEBRUARY, 2020

SYMPTOMS

- Fever
- flu-like symptoms such as coughing, sore throat and fatigue
- shortness of breath

PREVENTION

WE DO NOT RECOMMEND SURGICAL MASKS for healthy members of the public. A surgical mask will not protect you against the virus.

TREATMENT

- THERE IS NO TREATMENT FOR CORONAVIRUS TILL NOW, but medical care can treat most of the symptoms. Antibiotics do not work on viruses.

CONCLUSION

Government is working on the prevention of this virus but the speed at which it is spreading is making humans difficult to catch it up.

The major prevention lies in the hands of an individual which is mentioned in the earlier slides.

Be Safe and have a healthy day!
